- RoSPA Gold Award for Occupational Health and Safety

Fasset Management Systems

MANAGEMENT SYSTEMS

Management systems, whether quality, environmental and/or occupational health and safety, provide a structure for standardising business activity. By systemising and standardising using validated methodologies you will employ business efficiencies that should lead you towards achieving your business objectives.

Fasset can assist your business in achieving:

- Health & Safety Policy
- BSI OHS 18001, ISO 14001, ISO 9001
- Safety Schemes in Procurement and Achilles
- RoSPA Awards

Using standard methodologies to understand your business, we will help you to map processes and understand streamlining opportunities.

HEALTH AND SAFETY MANAGEMENT

Employing a health and safety management system in the workplace shows a commitment to best practice, responsibility and workplace safety:

- Reduce liability and personal injury to employees
- Robust framework for legislative compliance
- Increase productivity and lower costs
- Corporate reputation and investment profile

Fasset is registered to BSI OHSAS 18001 and has held this certification at Langstone Technology Park in Havant for over 5 years. We can guide your business through the process and provide ongoing support to maintain the standard:

- GAP Analysis
- Register of health and safety legislation and compliance assessment
- Development of health and safety documentation
- Risk assessments
- Pre-assessment and internal/external audits
- Health and safety training (see overleaf)

In addition to BSI OHSAS 18001, Fasset has a dedicated workplace health and safety service that offers a comprehensive package of support and training; and has been awarded the RoSPA Gold Award for Occupational Health and Safety.

QUALITY MANAGEMENT

Implementing a robust quality management system is about more than certification; it's about unlocking significant benefits to your business:

- Stakeholder engagement and client confidence
- Increased efficiency and productivity
- Streamlining and cost reduction
- Reputation and employee satisfaction

Fasset is registered to ISO 9001 and has 100% success rate with clients looking to achieve this international certification. We provide expert quality management consultancy tailored to your industry and business requirements alongside training and ongoing maintenance programmes:

- Design and implementation of formal quality management systems
- GAP Analysis
- Quality objectives and target setting
- Process mapping and procedures
- Pre-assessment and internal/external audits
- Customer satisfaction measurement

ENVIRONMENTAL MANAGEMENT

We can help your business implement a formal environmental management system and successfully manage the environmental aspects of your business.

Fasset is registered to ISO 14001 and has experience of working with different businesses to achieve and maintain this standard:

- Environmental policies and audits
- Aspects and impacts
- Legislation register
- Reduced liability
- Compliance with environmental legislation
- Reduction of waste and energy consumption
- Improved investment profile
- Enhanced corporate image and social responsibility
